

## TurningPoint Clicker Instructions

- Opening TurningPoint/Start Polling

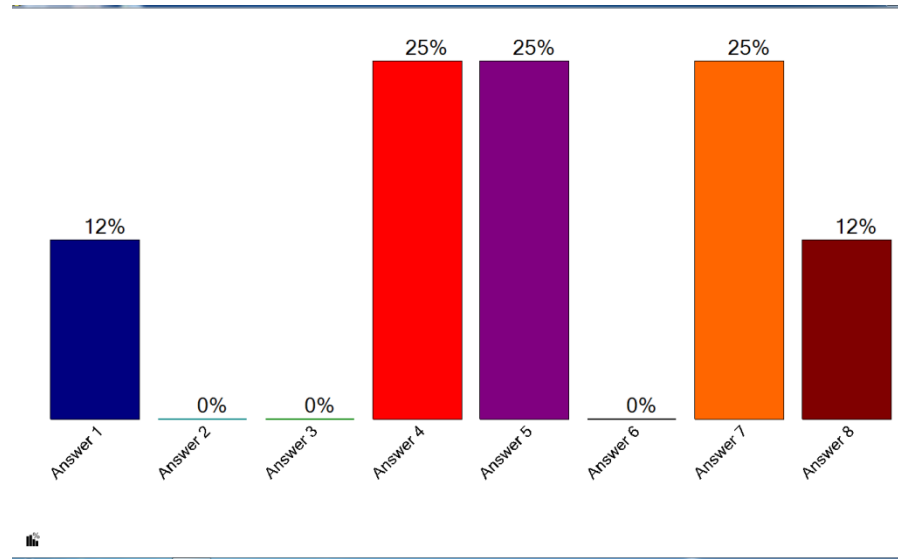

- Double-click on the “TurningPoint Anywhere” icon on the desktop to open the TurningPoint software

- The black dialog box will pop up that shows the ‘Start/Stop’ button, amount of Responses and amount of Feedback

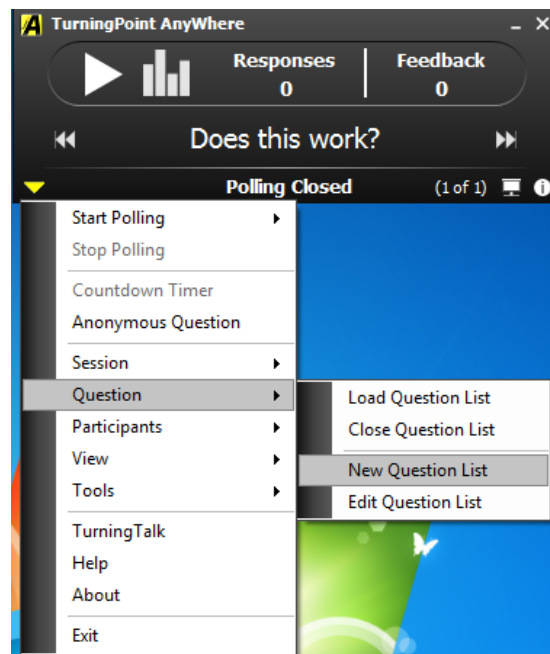

- To begin polling and receiving responses, press the ‘Start’ button once; to end polling and stop receiving responses, press ‘Stop’ once
- Once the polling has been closed, the Results will pop up in the form of a bar graph, showing the amount of responses for each answer

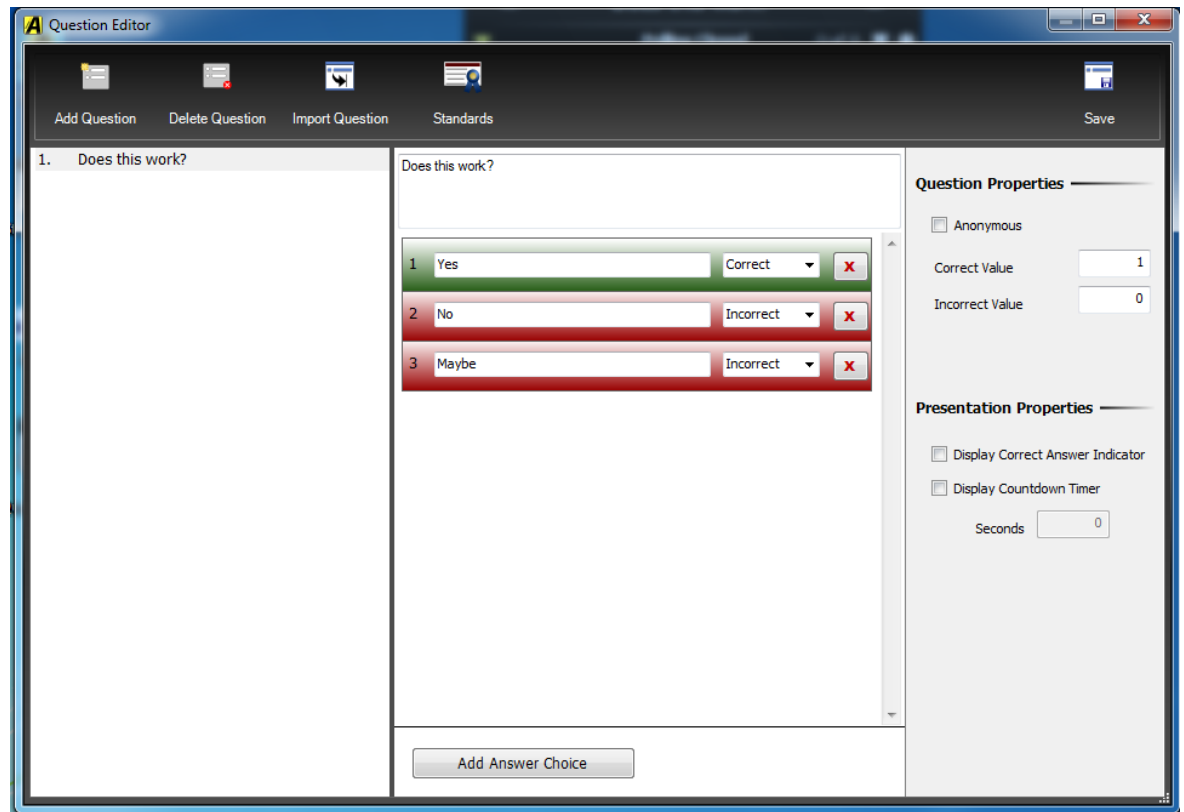

- Create A New Question List/Adding Questions

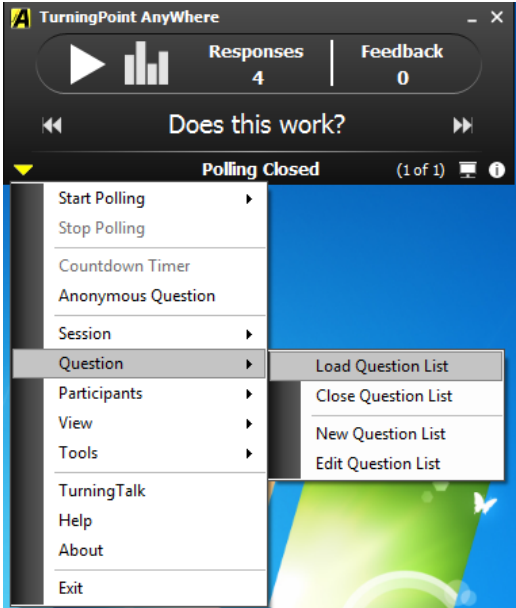

- To create a new Question List, select the small yellow triangle in the bottom left-hand corner of the dialog box; scroll down to “Question”; select “New Question List”

- A new dialog box will pop up; from here, you can add and edit, delete, import or save questions to your new list using the buttons across the top of the box

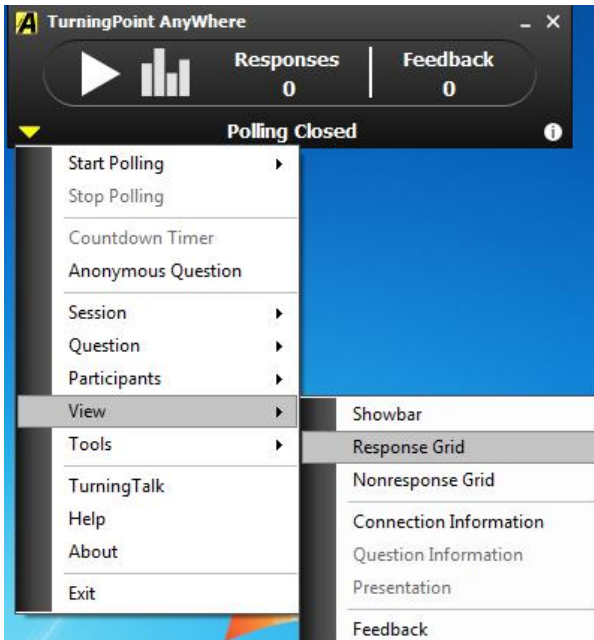

- Once your list is complete, click 'Save' in the top right-hand corner and choose a name and destination for your new list
- Load A Questions List
  - To load an already-prepared question list, click the yellow triangle in the bottom right-hand corner; scroll down to 'Question'; select 'Load Question List'

➤ A new dialog box will open up and you can search for and select your question list

- Response Grid

- To view what clickers have responded to the poll in progress, click the yellow triangle in the bottom left-hand corner; scroll down to 'View'; select 'Response Grid'

- This will bring up a new dialog box that will show you the serial numbers for each of the clickers that respond to the poll
