Name of Policy:	Outpatient Nutrition Screening for Recipient and Donor Kidney Transplant Patient	THE UNIVERSITY OF TOLEDO MEDICAL CENTER
Policy Number:	3364-104-207	
Department:	Clinical Nutrition	
Approving Officer:	Senior Hospital Administrator	
Responsible Agent:	Chief Clinical Dietitian	
Scope:	Food & Nutrition	Effective Date: 4/1/2023 Initial Effective Date: 10/2007
New policy proposal Maior revision of existing policy Reaffirmation of existing policy		

(A) Policy Statement

Patients undergoing evaluation for kidney transplant, both recipient and donor, will be screened to determine the need for nutrition education.

(B) Purpose of Policy

To identify patients who may benefit from further nutrition assessment and education related to their disease condition or to improve their nutrition status.

(C) Procedure

- 1. While the recipient is being evaluated in Transplant Clinic, the Dietitian will complete and document a nutrition assessment/screen in the electronic medical record.
- 2. A Dietitian Referral/Consult can be ordered in EPIC.
- 3. Donor kidney transplant patients will be screened by the RD and will be seen for further nutrition assessment and counseling if warranted by the nutrition screen.
- 4. Post-Transplant patients and donors will have involvement of RD during nutritional assessments/nutritional counseling, during multidisciplinary rounds and in the discharge planning process.
